

# English Curriculum Roadmap KS3

**Assessment at KS3**  
Each year, students complete 3 reading assessments, 3 writing assessments and at least one speaking and listening assessment. These are 'summative assessments' which let our students know the progress they are making in their English studies.

Each assessment is prepared for with formative assessment that gives students targets to work on to allow them to reach their full potential in their summative assessment.

A combination of these two forms of assessment in conjunction with other tests (standardised reading tests, spelling tests etc) allows us to map each student's learning journey and assess their progress.

**Curriculum Content**  
Our curriculum aims to equip our students with the skills and knowledge needed to be inquisitive and independent critical thinkers. We also aim for an inclusive curriculum that covers a wide range of diverse voices from different backgrounds, cultures and experiences.
