Dear Parent/Carer

One of the biggest changes to UK data privacy law came into effect on 25th May 2018.

The General Data Protection Regulation (GDPR) is a positive step towards you having more control over how your data is used and how you are contacted. The changes will also help to improve the security of your personal data.

The CAM Academy Trust has updated their Privacy Notices to reflect these changes, a copy which can be found on the school's website at <http://www.combertonvc.org/privacy-notices>

The General Data Protection Regulation (GDPR)

More control over your and/or your child's personal data

GDPR will give you more control on how your personal data is used. You will have greater visibility and control over the personal data the school hold on you – whether it's something as simple as your name, or as complex and sensitive as medical information.

We will tell you how we collect your or your child's personal data and how we use it. We must always have a legal reason to process the data which sometime may mean we will request your consent to use this data. You can withdraw your consent at any time.

We will keep all personal information securely for as long as we are legally required to or as set out in the management & record retention policy. If we share your information with a third party we will ensure they are GDPR compliant.

This means you can have greater confidence that information about you/your child is accurate, up-to-date, and secure and properly manage.

As part of our work to comply with the GDPR, we are re-seeking consent from you to use photographs or videos of your child(ren) on our website, internal displays and/or other

school materials and would therefore ask that you please read and complete the electronic consent form attached to this email by 4th June 2021.

The CAM Academy Trust has appointed Carolyn Duckett as their Data Protection Officer (DPO) if you have any questions regarding the changes please contact her cducket@catrust.co.uk

Thank you.
Kind Regards

Peter Law
