

## Inspiring Digital Enterprise Award

It is vital that all pupils are equipped with a strong set of digital skills before they move on to the next stage of their learning. Therefore all pupils in year 10 and 11, including those already studying iMedia and GCSE computer science, will complete the iDEA award. The inspiring Digital Enterprise Award is a widely recognised qualification and will be a great addition to personal statements and CVs. The iDEA award help students develop their digital, enterprise and employability skills and more information about the award can be found here: <https://idea.org.uk/>.

The pupils will complete the Bronze award for this qualification during the curriculum extension days and for homework throughout year 10 and autumn term in year 11. The assessments can be completed independently, and the students will be guided through their learning. The qualification takes 20-25 hours in total over 12 months.
